PROJECTS

Attendance Management App

Description

Developed a web-based Attendance Management System for company employees to efficiently track daily attendance. The application allows users to punch in and punch out, view attendance in a calendar format, and manage leave records. It helps HR and managers monitor employee presence, absences, and leave status in a centralized system.

Key Features

- Punch In & Punch Out functionality with date and time tracking
- Leave management with different leave types (Casual, Sick, etc.)
- Calendar view to display daily attendance and leave status

CERTIFICATES

- Web Development Certificate
- Frontend Development Certificate
